## Software Developer

---

Software Developer with hands-on experience delivering enterprise-grade ERP and E-Commerce platforms, as well as scalable mobile applications in logistics and utility domains. Proficient in C#, ASP.NET, Angular, React Native, PostgreSQL and SQL Server, with a strong focus on crafting seamless user experiences and optimizing cloud-based deployments. Adept at debugging, performance tuning, and developing multi-tier architectures. Demonstrated expertise in integrating cloud services, particularly on Google Cloud Platform (GCP), and delivering clean, maintainable code throughout the entire software development lifecycle.

## Education

---

**APJ Abdul Kalam Technological University Kerala** Dec 2020 – June 2024  
• **Bachelor of Technology in Computer Science** CGPA: 7.5

**Directorate of Higher Secondary Education Kerala** June 2018 – March 2020  
• **Higher Secondary in Computer Science** 84%

## Experience

---

**Dot NET Full Stack Developer**, Skien Software Labs, Kerala June 2024 – Present

- Built and deployed high-performance web applications using .NET Core, C#, SQL Server, and PostgreSQL, ensuring reliability and maintainability under heavy usage.
- Led the development of a scalable logistics ERP system for **Cologic Delivery, Al Madina Hypermarket**, delivering robust modules for warehouse and stock management, inventory tracking, invoicing, CRM integration, and vehicle dispatch workflows.
- Migrated legacy enterprise mobile apps from Apache Cordova to **React Native**, improving performance, UI/UX consistency, and platform stability across Android and iOS.
- Maintained and enhanced legacy systems built on C# code-behind logic for internal ERP/CRM modules.
- Collaborated directly with clients and cross-functional teams to gather requirements, resolve production issues, and deliver high-quality, customized ERP/CRM solutions on time.

## Projects

---

**SpotWise - Parking Assistance Web App** [spot-wise-bti9.vercel.app](https://spot-wise-bti9.vercel.app)

- Developed a Smart Parking System integrating real-time parking updates, navigation, and secure payment calculation.
- Utilized React JS, Node JS, PostgreSQL, and AWS to ensure scalable and secure data storage.
- Features include parking reservations for enhanced user convenience.

**Suraksha KSEB - Management and Digital Documentation** [suraksha.vercel.app](https://suraksha.vercel.app)

- Developed a web application for efficient data management and digital documentation for Kerala State Electricity Board.
- Enables real-time reporting of power outages and issues while ensuring secure authentication.
- Streamlines operations and improves service reliability using Go language, Typescript, PostgreSQL, and Docker.

## Technologies and Skills

---

**Languages:** C#, SQL, Typescript, JavaScript, HTML, CSS

**Technologies Frameworks:** .NET (ASP.NET, .NET Core), Angular, React Native, Apache Cordova, Firebase, Expo, Express.js, REST APIs, JIRA, Azure Devops

**Cloud DevOps:** Google Cloud Platform (GCP), AWS, Docker, CI/CD Pipelines, Git

**Databases:** PostgreSQL, SQL Server, MongoDB, Firebase Firestore, MySQL

**Skills:** Generative AI, Cross-platform mobile app development, Cloud management, Debugging troubleshooting, DevOps practices, IIS deployment, Database management, System architecture, Client interaction, Team collaboration, Problem-solving, Agile methodologies
